

JCM 110 Patch Clamps

Patch clamps are fast economical repair clamps to permanently repair pin holes, punctures or splits in steel pipe. These inexpensive clamps are widely used in plumbing, industrial, water, gas and irrigation markets.

How To Order

1. Determine clamp size and width required.
2. Order by clamp number and quantity.
 Example: For 3/4" pipe, 3" wide, quantity 16, order: 16 each 110-0105-3.
 For optional stainless steel bolts, add (SS) to end of part number: 110-0105-3 (SS).

Stainless Steel 18-8 Type 304 band provides sealing strength and corrosion resistance.

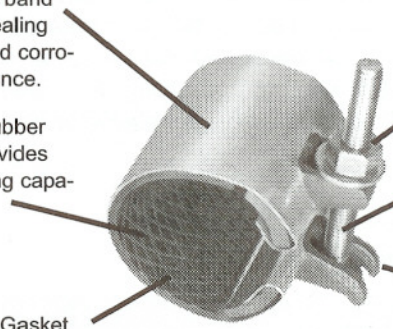

Gridded Rubber Gasket provides extra sealing capability.

Lug to Lug Gasket in popular 1/2" - 2" sizes.

Heavy plated nut provides extra strength in take up.

Plated Drop-in Bolts speed installation. Stainless bolts available.

Coated Ductile Iron Lug has extra long slot to speed installation.
